

Let's Talk about Driving

A Free Education Event

Image courtesy of: Driving and Dementia Roadmap, Baycrest and Sunnybrook Health Sciences Centre

This presentation is intended for older adults, people living with MCI or dementia and their family and friends.

Topics include:

- How do I decide when it's time to retire from driving?
- How do we talk about this as a family?
- What are the warning signs that driving is getting risky?
- What should I know about driving and dementia in Ontario?
- What are the obligations of health care professionals to report to the Ministry of Transportation?
- Addressing the grief and loss that affects a whole family when driving stops.
