

Fundraising Notice

The Society has a fund development team that collects financial support to help us do our work and improve our facilities and services to you. It is with the help of our generous donors that we are able to keep providing excellent services in our community.

Unless you request otherwise, we will assume that we have your implied consent to share your name and mailing address with our fund development team to contact you to request a donation and offer you other educational and fundraising opportunities.

You may tell us not to share your information with the donations team by contacting us at donations@alzswp.ca or by calling 1-888-495-5855.

Rest assured that:

- To contact you by email, phone or text message for fundraising we need your permission. Please let us know if that is of interest to you.
- If you ever want to stop receiving information from the donations team – we will stop. Just let us know how much or how little information you would like to receive.
- Your decision to receive information about fundraising or your decision to donate or not has no impact on the services you receive from us. There is no pressure for you to choose to donate or receive our team's communications.
- We do not know how much individuals donate (unless they choose to tell us)

If you have questions, donations@alzswp.ca or see our privacy policy posted at alzswp.ca/fundraising-privacy-policy/.
